SKILLS

Programming Languages: JavaScript, Typescript, Python, and C++.

Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Liquid (Shopify)

Backend Technologies: Node.js, Express.js, NestJS, PHP Databases: MySQL, PostgreSQL, MongoDB, TypeORM, Mongoose, AWS (S3), Firebase, Firebase Realtime Database.

Shopify Development: Shopify CLI, Liquid, Metafields, Theme Customization, Admin & Storefront APIs

Version Control & Collaboration: Git, GitHub, Postman, Agile/Scrum API Development: REST APIs, OpenAPI, Swagger, JWT, Stripe Integration

Software Engineering: Problem-solving, Software Architecture, Design Patterns, MVC, Clean Code.

Technical Tools: VS Code, Figma (basic), Canvas, MS Office, Prezi, Blender (basic)

EXPERIENCE

Associate Software Engineer, Intern

Feb 2024 - May 2024

Citrok, | Lahore, Pakistan, (Remote)

- Hands-on experience in backend development with NestJS, TypeORM, and Typescript; contributed to client projects, version control (Git), and frontend using HTML, CSS, and React.js. Full Stack Developer

Full Stack Developer

May2024–April 2025

Citrok | Lahore, Pakistan (Remote)

- Built and optimized RESTful APIs, reducing response times by 30%.
- Implemented database solutions using MongoDB and MySQL, ensuring data integrity and scalability.
- Collaborated with cross-functional teams to deliver high-quality software solutions within deadlines. Integrated third-party APIs and tools to enhance application functionality.
- Followed agile methodologies and participated in daily stand-ups, sprint planning, and code.

Full Stack Developer

Alahdeen B2B | Karachi, Pakistan (On-site)

May 2025–Present

- Built and maintained production PHP/MySQL APIs for a B2B marketplace (leads, quotes, chat, notifications, user onboarding).
- Integrated OpenAI APIs to automate product workflows (AI suggestions, content generation, and validation where required)
- Implemented real-time chat/presence flows using Firebase Realtime Database and ensured reliable message writes
- Improved API performance via indexing, pagination, and caching; delivered clean JSON contracts and reusable helpers
- Worked on deployments and cloud setup on AWS and followed secure coding practices (auth, access control, input validation)

PROJECTS

Alahdeen B2B Marketplace (Production) [Live](#)

Contributed to core marketplace modules of a large-scale B2B platform connecting wholesalers and retailers, including lead management, supplier replies/metrics, and real-time chat & notifications. Integrated OpenAI APIs for AI-driven features and implemented REST APIs documented with OpenAPI/Swagger, along with key performance improvements. Stack: React, PHP, MySQL, Firebase (RTDB).

Khata Alahdeen: [Live](#)

Worked on **Khata Alahdeen (AI Munshi Khata)**, an AI-powered digital bookkeeping and ledger management platform integrated within the Alahdeen B2B ecosystem. The platform enables wholesalers and retailers to manage their daily financial transactions, track debits/credits, and maintain

digital khata records — replacing traditional manual bookkeeping with smart, automated solutions.

AI Content Studio – Full-Stack AI SaaS: [Live](#)

Developed a full-stack AI SaaS application that generates SEO-optimized meta titles and descriptions from a product's name, keywords, and category. Built credit-based subscription tiers (Free, Basic, Advanced) with an admin portal, using React, NestJS, and PostgreSQL

ServiceSync Pro – Full-Stack Home-Services Marketplace: [Live](#)

Built a two-sided marketplace web app connecting verified service providers (electricians, plumbers, AC technicians, cleaners) with customers. Implemented separate provider and finder accounts, admin-based approval/verification, and service search-and-request workflow.

CineSlot — Movie Ticket Booking System: [Live](#)

Developed a full-stack cinema booking web app where users browse movies, select showtimes, and reserve available seats in real time through an interactive seat-selection interface. Built an admin panel to manage movies, showtimes, dates, and seating layouts.

EDUCATION

National University of Computer and Emerging Science (FAST NUCES)

Sep 2021 - June 2025

Bachelor of Science in Computer Science (BS CS)

CERTIFICATE

- Data Structure & Algorithm - Udemy
- Full Stack Web Development - Udemy
- React.js - Coursera
- Version Control with Git - Coursera
- Introduction to Artificial intelligence - Coursera
